The outfitter also has two permits left for this season, which ends on 27th March 2024, to hunt in the Sierra de Gredos Regional Hunting Reserve. November and December are ideal months to hunt there, as it coincides with the rutting season of the ibex. The Regional Hunting Reserve Sierra de Gredos is possibly the best place in Europe to hunt ibex. It was created in 1905 and at the beginning of the 21st century it received the Edmond Blanc award in recognition of its fantastic hunting and environmental management.
